## EDUCATORS OF MUCH PROMINENCE WILL BE THE INSTRUCTORS

City Superintendent of Capital City Schools and Head of Ohio Industrial School to Instruct Mason County Teachers.

County Superintendent George H. Turnipseed has made arrangements for the annual County Teachers' Institute to be held this year the last week in the month of August and the meeting this year will probably be held in the Third Street M. E. Church as that building is much more convenient for the use of the teachers than the Court House.

The instructors this year will be Prof. J. W. Ireland, city superintendent of the Frankfort, Ky., schools and Prof. S. L. Turnipseed, of Lancaster, Ohio, a brother of the county superintendent and Superintendent of the Ohio Boys' Industrial School. Both of these gentlemen are members of the Board of State Examiners in their respective states and in obtaining them Prof. Turnipseed is to be congratulated and the Mason county teachers are indeed fortunate.

The program for the institute will be made up just as soon as possible and due announcement will be made.

As has been the custom in the past, all teachers in Mason county schools will be required to attend the institute and will be given credit for the time just as if they were teaching in their regular schools. Everything for the comfort of the teachers will be arranged and it is certain that a large number of the city teachers will take advantage of the course as well as the county teachers. All sessions will be open to the public and every one is cordially invited to attend any of the sessions.

Besides the instructors who will address the teachers every day, others are expected to speak on various general topics.

## TWO LAST EPISODES OF "THE TERROR OF THE RANGE"

The two last episodes of the big western thriller, "The Terror of the Range" featuring George Larkins, will be shown at the Pastime tomorrow in connection with Pathe's latest news. This is a big double show at the regular price of admission. A big bargain show that no one can afford to miss.

## COUNTY AGENT BACK ON THE JOB

County Agent George Kirk and family returned this morning from Champagne and other points in Illinois, where they have been spending a two weeks' vacation.

## SECRETARY TO TRAIN DURING SUMMER VACATION

Secretary Carl Dodds, of Chamber of Commerce, Will Spend Summer Vacation in Summer School in the East.

At the meeting of the Board of Directors of the Maysville Chamber of Commerce held Wednesday evening at the Chamber of Commerce building, the directors of that organization granted Secretary Carl Dodds a two weeks' vacation beginning the latter part of this week.

Mr. Dodds will spend his vacation at Eagles Mere Park, Pa., attending the Summer School of Community Leadership to be conducted there by the American City Bureau, of New York City. This school which will last for two weeks from July 14 to 26 will have as instructors some of the nation's most successful business experts. This course will be of much benefit to Mr. Dodds and he will return to Maysville much better qualified for his work as the active head of the local commercial organization.

In order to reach Eagles Mere Park for the opening of the term, Mr. Dodds will be required to leave Maysville the last of this week.

There is nothing important to come before the organization during the next two weeks and during Mr. Dodds' absence the office will be handled by County Agent George Kirk and Miss Phoebe Huron, the secretary.

## THRESHING PROCEEDING

It is expected that there will be quite a rush in this city next week of farmers delivering their grain to local dealers. Threshers have been busy all this and part of last week and reports from the country are to the effect that grain is turning out well and that the farmers are well pleased. On the government basic price, farmers in this section are receiving \$2 per bushel for their wheat.

## PRAYER MEETING TONIGHT

Following the regular weekly prayer meeting service at the First Baptist church this evening at 7:30 o'clock the regular monthly business meeting of the church will be held. This is a very important meeting as Pastor Bailey's resignation will be presented.

## CARD FROM COL. RUSSELL

The Public Ledger is in receipt of a card from Col. J. Barbour Russell who with his wife and Mr. W. W. Ball, Jr., is now at Battle Creek, Mich., on a vacation. Mr. Russell says the trip was made in his big car without a serious mishap and that the party is greatly enjoying the rest in the north.

## SOUTH METHODISTS GO OVER QUOTA IN CENTENARY DRIVE

Both Maysville Churches Contribute Considerably More Than Their Share in Centenary Campaign.

Southern Methodist Churches in the Maysville District of the Kentucky Conference went more than \$50,000 over their quota in the Centenary Campaign according to official figures just made public. Both of the Maysville Churches went far over their apportionments. The First Church, Maysville, led the entire district.

The official figures as given below are first made public by Mr. J. Marvin McIntire of Flemingsburg, in charge of this district through the Flemingsburg Times-Democrat. They follow:

## WATER IN CAR BARN WELL REPORTED PURE

Dr. Rice, Mason County Health Officer, a few days ago sent a sample of water taken from the well at the car barns and a sample of city water away for examination. Reports received today are that the car barn well water contains but 5 "bugs" to the cubic centimeter while the city water contains 9,000 "bugs" in the same space.

## WOULD HAVE EARLIER MORNING L. & N. TRAIN

The Chamber of Commerce has again taken up with Mr. H. S. Ellis, local L. & N. agent, the matter of having a train come into Maysville earlier in the morning. This train is greatly needed during the school season and the tobacco season. Mr. Ellis has assured Secretary Dodds that he has taken the matter up with the company and will advise him later.

## TOBACCO SALES REPORT

Commissioner of Agriculture Mat S. Cohen reports that during the month of June in the State of Kentucky a total of 777,890 pounds of the 1918 crop of tobacco was sold at a general average of \$12.88. Of this amount 209,155 pounds was burley which brought an average of \$13.55 per hundred.

## LEGION WEEKLY HERE

The American Legion Weekly, official organ of the American Legion, has made its first appearance here. A supply has been sent to the County Clerk's office. The first edition was published on July 4th and carries the endorsement of many prominent men of the Legion.

## COFFEE EXPERTS SAY PRICES WILL GO MUCH HIGHER

People of This Section Are Laying in a Winter's Supply of Coffee Because of Threatened High Prices, Local Roasters Say.

Much has been said by the newspapers of the country recently about the sudden advance in the price of coffee and that the people of this section are protecting themselves against the very high prices predicted for this winter. Is the statement of Mr. Fred Arn, president of the Maysville Tea and Coffee Company, local importers and roasters.

Mr. Arn says that his firm has been selling much coffee recently to people in Maysville and its surrounding territory. This coffee is being sold in large quantities to the consumers. Mr. Arn says that never before in recent years have the housekeepers laid in a winter's supply of coffee. He predicts, however, that those who are laying aside their winter's supply are the wise ones for he says there is every reason to believe that the price of coffee will be much higher when the winter season comes.

Through fair dealings and the handling of a good quality of coffee, the managers of the Maysville Tea and Coffee Company, have built up a large and rapidly growing business. The people have placed confidence in the company because it has demonstrated conclusively that this confidence is not misplaced and Mr. Arn's warning about coffee will probably save the people of this section considerable money.

## NEW OIL CONCERN WOULD LOCATE IN MAYSVILLE

Representatives of a Western Oil Concern have been in Maysville several days seeking a location near the city limits for a local branch. They contemplate the installation of oil and gasoline tanks and the operation of tank wagons in Maysville and throughout this section. Up to the present time they have been unable to find a suitable location.

## RUGGLES TO HAVE MANY CAMPERS THIS YEAR

From the number of applications that have been made for cottages and rooms in the hotel this year at Ruggles Campgrounds, it appears that this season will be one of the best old Ruggles has had in many years. Many Maysville people are preparing to camp at Ruggles this season and are planning for a great big time.

## PASTOR CHOSEN SCHOOL HEAD

The Board of Education of the village of Aberdeen has chosen Rev. Ben Miller, pastor of the Aberdeen Baptist church, as principal of the Aberdeen High School for the ensuing year. Mr. Miller is highly cultured and has had considerable experience in teaching. He was educated at Georgetown College, this state.

## BAND PLAYS AT LAND SALE

The Maysville Boys' Band went to Ewing today where they will play at a big sale of town lots. The band is being managed on this trip by Mr. A. L. Glascock and we are certain they will surprise and greatly please the Ewing people.

Mr. and Mrs. R. L. Woodworth and Miss Gretchen Lee Woodworth of Indianapolis, are visiting Mrs. Woodworth's mother, Mrs. B. W. Tolle of East Fifth street.

Mrs. Ollie Faulkner of Cincinnati, is the guest at the home of her brother, Mr. James A. Frost of Cherry street.

## BOURBON COUNTY WOMAN IS KILLED BY LIGHTNING

Worst Electrical Storm in Several Years Sweeps Over Bourbon County—Several Buildings Struck.

Paris, Ky., July 10.—Mrs. Annie McPheny, wife of Robert McPheny, living on the farm of T. J. Redmon on the Jackstown pike, was killed by a stroke of lightning which partially demolished the McPheny home late Wednesday during one of the worst electrical storms which has visited Bourbon county in several years.

A corner of the residence occupied by the Redmon family was torn off by another stroke of lightning, but none of the family was hurt.

The storm, which seemed to be local in character, lasted for more than an hour, flooding the street of this city and greatly benefiting growing crops. Little damage is reported from the wind which accompanied the rain, although several buildings were struck by lightning.

Mrs. Pearl Deavers, of Fifteenth street was stunned by lightning which struck nearby during the storm. She was unconscious for an hour and a half.

Reports from Shawhan and North Middletown indicate that the rain was heavy in that vicinity.

## MAYSVILLE FACING SUGAR FAMINE JUST NOW

Blackberry season is on in full blast throughout this section. Berries are being sold for around a dollar a bushel. The coming of berries has caused a heavy drain on the sugar supply of the city until the local wholesale grocers' stocks have become very low while the retailers have no large supply on hands. Both local wholesalers, however, have a good supply of sugar purchased and shipped which is expected to arrive in a very short time and the threatened sugar famine may be averted.

## GROCERS' ASSOCIATION MEETS TONIGHT

The regular monthly meeting of the Maysville Retail Grocers' Association will be held this evening at 7:30 o'clock at the Chamber of Commerce building. Mr. Bowden Cummins, who has just returned from Europe after several months with the A. E. F., has been invited to attend and tell the grocers something of his experiences in Europe.

The Ladies' Aid Society will give an ice cream supper on the lawn of the new Church at Murphysville Saturday night, July 12th. Everyone invited.

## QUOTATIONS ON STOCK AND GRAIN TO BE FURNISHED FREE

Maysville Chamber of Commerce Will Soon Begin the Posting of Correct Market Quotations For the Benefit of Mason County Farmers.

Shortly after the rural membership drive of the Maysville Chamber of Commerce in which a large number of Mason county farmers became associated with the local organization, it was suggested that the organization could be of very much service to the farmers by having correct market quotations for their use every day.

Mr. W. Holton Key was appointed a committee by the directors of the Chamber to make some investigations as to how he could obtain these quotations daily. At the meeting of the Board of Directors held Wednesday evening, Mr. Key reported that he had made thorough investigation of the matter and had taken the matter up with the Executive Secretary of the Cincinnati Chamber of Commerce who promised to furnish the quotations daily to the local Chamber of Commerce without cost except for telegraph tolls.

The directors have agreed to furnish these quotations on this basis and have instructed the officers to make the necessary arrangements. It is expected that the quotations will be started in a very short time.

## IS THERE ANOTHER SURVIVOR?

George Faulkner, Sr., is now the only survivor of the men who worked on the construction work of the old Maysville & Lexington railroad in 1852. If there is another living he would like to hear from him. As a boy, the writer remembers to have heard the heavy blasting done on the big cuts that were being made from Cowan Station to Licking River. Flemingsburg Times-Democrat.

## BLUEGRASS LAND IS SOLD FOR \$407 ACRE

Paris, Ky., July 10.—Hugh French, Lexington, Wednesday, purchased from R. Ritchie thirty-five and a half acres of bluegrass land, located on the Bethlehem pike, for \$407 per acre, amounting to a total of \$16,000.

## BURLEY DIVIDENDS HERE

Checks for the second dividend on Burley Tobacco Society certificates are now at the Farmers and Traders Bank. Holders of certificates will please present them at the bank and receive their checks. 10-31

## PEACE TREATY IS RATIFIED BY THE GERMAN ASSEMBLY

Ebert Signed Bill Wednesday Night and It Will Be Returned to Allies Immediately.

Versailles, July 10.—Official notification of the ratification of the peace treaty by the German National Assembly was given to the Peace conference Thursday morning.

President Ebert signed the bill ratifying the peace treaty at 8 o'clock Wednesday night, and the document is on its way to Versailles.

The German national assembly plainly demonstrated Wednesday that it wanted to complete the unpleasant task of ratifying the treaty quickly and without obscuring the measure in any way with qualifying resolutions. At the opening of the session the Conservatives introduced a resolution which would have made ratification dependent upon the judgment of recognized authorities in international law as to whether the proposed international court could institute trial and could, with retroactive jurisdiction and authority, impose penalties which had not heretofore been prescribed in international law. The resolution was aimed at the enforcement of Articles 227 to 230, inclusive, of the Peace treaty (providing for the trial of the former emperor and other Germans accused of causing the war or of violations of the rules of war. It also provided for the establishment of a neutral court to pass upon the question of responsibility for the conflict. The bill ratifying the treaty passed the first reading and then a recess was taken to give the parties an opportunity to discuss the resolution. After 15 minutes the assembly reconvened and Dr. Schiffer, national liberal leader and former minister of finance stated that he regretted the introduction of the resolution, as it would only serve to confuse the situation. The Conservatives defended the resolution, but it was decisively beaten. The treaty bill was then taken up and quickly passed on the second and third readings, with the opposition coming from Democrats, National Liberals and Conservatives. Dr. Bernhard Dernburg, former minister of finance, Frederick von Payer, former imperial vice chancellor, and a few other Democrats voted for ratification.

Mrs. Jennie Wheeler and daughter, Miss Helen Wheeler, arrive tomorrow to be the guests of Mrs. Wheeler's daughter, Mrs. George Kirk and family at the Kirk.

## OUR POLIOY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

## LEADERS MUST SET EXAMPLE

If we are to demand and expect law and order among the masses of the American people—among the less intelligent and least informed—we must demand and secure observance of law and order in both letter and spirit among people "higher up," especially among those in official position. If we are to have respect for government among the masses, we must have respect for government among those who are specially charged with administration of the law. Those who would teach loyalty to American institutions must themselves set an example in loyalty by strict adherence to the fundamentals of our republican form of government.

These are general observations, but they have specific application to conditions and problems now confronting the American people. There is abroad in the land a spirit of bolshevism, which, though manifested by a small minority, is now for the first time a menace to our institutions. The exhibition of that spirit in the bombing outrages is the least of its evils. Its more menacing aspects are seen in the underlying disposition to ignore and evade law, to defy legal requirements and to set up individual will against duly constituted authority.

"And it is not surprising that such a tendency should be prevalent. We have had for too frequently in the past six years exhibitions of substitution of individual will for orderly and lawful procedure. One of the earliest instances came during the special session of Congress following the inauguration of the Democratic administration. Congress was then revising the tariff laws and many men connected with the productive American enterprise came personally or sent their representatives to protest to Congress against legislation destructive of American industry. Can it be that the proposal to "hang them higher than Haman" was the initiation of a policy of violence from which the nation suffers today? What choice is there between hanging and bombing? Is one a greater crime than the other, and, if so, why?

"The American people have not forgotten the occasion on which certain organizations having control of trains made demands for immediate increase in wages, threatening as an alternative the cessation of transportation with resultant halting of industry, destruction of business, scarcity of food in cities, suffering from want, and, probably, loss of life. This demand had support and co-operation from men in position of high authority. With what consistency can those men now denounce the bolshevist whose threat of force takes a somewhat different form though less formidable and fearful in its consequences?

We have seen in more recent times a seizure of the cables and wires on the pretext of war necessity—a pretext which was no corroboration convincing to the minds of the American people. So far as yet appears, that seizure resulted in no good to the country, no promotion of the war, no improvement of service. To all appearances it was an exhibition of a disposition to exercise power for the enforcement of personal views on operation of public utilities. It was subversive of the spirit of the law. How can the men who thus dealt with private property in one instance condemn others who deal in their own individual way with other private property of still other proprietors?

Instances of this kind might be multiplied but these are sufficient to illustrate the principle herein set forth that those who would effectively preach respect for law and order must themselves practice it.

## HORSES AND AUTOMOBILES

It is estimated that one automobile replaces from three to six horses, and as there were approximately 3,500,000 automobiles licensed in 1918, this would represent the supplanting of from 10,500,000 to 21,000,000 horses, says the Dayton Herald. The figures are misleading and far from accurate, for if they were true it would mean that there would be practically no horses in the United States today. Contrary to popular belief, the automobile is not marking the passing of the horse and it is unlikely that there will be any decrease in horses in the country for many years to come.

In 1910 it was announced that there were 18,000,000 horses in the United States, and the estimate for 1918 allows for an increase to 21,563,000, despite the enormous increase in the number of automobiles in these eight years. Trucks have replaced the horses in cities and even in rural communities, and tractors have taken his place upon the farms, yet Dobbin still seems to fit many uses and he still commands high prices for racing and show purposes. The horse is a nuisance in city streets, especially in traffic congestion, and he is less clean and sanitary than an automobile, but he fits into a great many places that an automobile will not be able to take away from him.

## THE PARALLEL

It is not surprising that the director general of railroads has felt it necessary to exhort all officers and employees to exercise the strictest economy in the use of supplies and equipment, so as to keep the losses of the government as small as possible. There was once a college man who was noted for the profusion with which he spent, wasted, and lost money in everything he did, and who kept up the practice for some years in business after he left alma mater. He disappeared for a few years, and when found again, he was working a farm. A friend asked him he was getting on, and he replied with enthusiasm:

"Splendidly! Top wave of prosperity!"

"But, man, you don't mean that you're making money on this farm?"

"Lord, no! But I'm losing it slower than I ever did before!"

If Mr. Hines can slow down the rate at which the government is losing money on the railroads, we shall be grateful.—Harvey's Weekly.

LIVER DIDN'T ACT  
DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadowville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught." Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. ## The Stories The Dewdrops Told

### PART I. THE VERY TALL FAIRY.

"I really think our garden is the nicest place in the world," said Dolly. It did look very pleasant in the early morning. Dolly's brothers had worked very hard, helping the gardener. The gardener had grumbled because so much more ground was put into the garden this year than usual, but Bob and Billy had heard a great deal about gardening in school and they had told him they would do much of the work.

Their teacher had told them about the people for away who were starving because of the Great War. All the men of those countries had been obliged to fight. So there had not been as many crops raised as usual, and now the women and the little children could not get enough to eat. The people of the United States had promised to help, so everyone who had any ground was making a garden. The school children had been allowed to use vacant lots and had raised many vegetables. The girls and boys had all worked together in the gardens. The girls were learning how to can vegetables so that there would be plenty for next winter.

Bob and Billy were leaders in the United States School Garden Army, and they had listened eagerly when their teacher read to their company a message from Secretary Lane.

Bob copied the message because he wanted Fatherbob to hear it. And, then, too, Bob wanted little Dolly, who told him about the Dewdrop Fairies, to know that Secretary Lane, from his office in Washington, had sent a special message to the "Army in the Field."

This is what the Secretary of the Interior wrote to Bob and Billy, and all the other boys and girls in the United States, and Hawaii, and the Philippine Islands—

"A million and a half of you answered the call last year; there should be five million this year."

"The war is over; but the world is only beginning to be rebuilt. In many parts of Europe, farms and the men to farm them are no more; yet the world must be fed."

"Food is the key to most of the problems of Europe. The United States School Garden Army has it in its power to be a big help to the nations in the task of feeding the world. Every garden added to the number planted last year means another step toward lasting peace."

"The boys and girls who have liberty gardens in 1919, the Garden Army officers who assist in keeping the Army efficient, and the teachers who direct the work, will render a patriotic service to be compared only with that of the men who won the war."

Now after Dolly had heard the message, which Fatherbob said was fine,

she went into the garden.

"I wonder if everybody's garden has Dewdrop Fairies in it," said Dolly to herself. "They make it so in-ter-est-ing." Dolly was very proud of her long word. "I wonder if I shall see one today. I wonder—"

Dolly would have gone on "wondering" if she had not just then seen the very person for whom she was looking. She was sure at once that this was a Fairy. It stood just by the side of the path. It was not standing still, but was moving gently from side to side, without taking its feet off the ground. It was very graceful, and very, very tall—for a Fairy, that is. It must have been as tall as Dolly's longest finger. It was a lady Fairy, dressed all in light green. The dress was very tight-fitting and a long train. Some pointed green feathers were in her hair. Her hair was a beautiful light-gold color and as soft as silk.

"You are right about this garden," said the Fairy. "It is a very nice garden. You should be proud of Bob and Billy for working so hard to make everything grow. And you needn't wonder about the Dewdrop Fairies. They are in every garden if people will only for them. Do you want to look into my dewdrop?"

Instead of pouring the dewdrop out of a watering pot, this Fairy held it in her hand. It filled her hand quite full. It looked like a bright diamond. Dolly looked into it and gave a great start. You will never guess what she saw. She saw many men with red-brown skins and very black hair. They had feathers in their hair. They were dancing. Besides seeing them she could hear music that was not like any music she had ever heard before. It was mostly thumping, like a drum, but there was a kind of tune that the men seemed to be singing.

### MONSHINE

My kind of religion: I would like to see a religion so simple that a child at its mother's breast would understand; a religion so universal that all mankind in all countries, might know and realize its meaning; a religion that would need no priest, no preacher, no teacher; a religion so pure, so sweet, without dogma or creed, without superstition or fear, without a thought of future life, but only of Living Now. I might sum up this kind of religion in just one simple word—Love.—E. L. Moon, Rotary Club of Columbus, Ohio.

### DO IT NOW

Maysville People Should Not Wait Until It Is Too Late.

The appalling death-rate from kidney disease is due in most cases to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms often give place to chronic disorders and the sufferer may slip gradually into some serious form of kidney complaint.

If you suffer from backache, headaches, dizzy spells, if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders—they act where others fail. Over one hundred thousand people have recommended them.

Here is one of many cases in this vicinity.

Jas. M. Newton, Gum, St. Aberdeen, Ohio, says: "I have used Doan's Kidney Pills off and on for several years and have been greatly benefited. Whenever my back has been weak or when my kidneys have been too frequent in action, I have used a box or so of Doan's Kidney Pills, which I get at Wood & Son's Drug Store. They have always relieved me in a short time."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Newton had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

### THE GREAT WAR AND THE Y. M. C. A. IN KENTUCKY

Topic for Discussion at the Annual State Meeting in Louisville—Enthusiastic Reports are Given From All Parts of the State of Plans for Definite Activity—State Board Members Elected.

There was a large attendance of members of the State Y. M. C. A. at the annual meeting held in the auditorium of the Louisville Central Y. M. C. A. building, Friday, March 14. President L. L. Anderson of Louisville was in the chair.

The topic for the morning discussion was, "The Interpretation of War History in Terms of Practical Application to the Kentucky Young Men's Christian Association." State Secretary P. C. Dix spoke on the subject, "Has the War Affected the Attitude of the People of Kentucky?" M. O. Hughes of Bowling Green spoke on "Has the Young Men's Christian Association Shifted in Its Place; Been Jarred out of a Snug Bearth or Shoved up to Its Place in the Sun as a Result of the War?" Dr. Dunbar H. Ogden, pastor of the Second Presbyterian church of Louisville discussed the subject "Does the After the War Church need the Young Men's Christian Association?" It was the consensus of opinion that the war has acted the attitude of the people of Kentucky as well as every other state, that the Young Men's Christian Association has been given added responsibilities as well as unequalled opportunities and that the church does not need the Y. M. C. A.

Interesting reports were given by representatives from the 12 districts of the state and of the colored department on what the Y. M. C. A. must do next in order to measure up to the new program.

A most interesting feature of the morning session was the splendid address by Harry W. White, one of the International Y. M. C. A. secretaries who has spent several years in foreign work. Mr. White and his family, after 5½ years in India were aboard a German merchant vessel on their way back to the United States for a rest when the world war broke out in August, 1914. They were carried to the Philippines and left. Mr. White then spent 2 and a half months in China and Japan and, shortly after reaching American, left for Egypt where he helped to organize the Red Triangle service in the British army. He saw service in the Dardanelles campaign and was with General Allenby's troops in Palestine. He was in France a number of times during the war and passed through the submarine zone 5 times. Mr. White made a very earnest appeal for funds to help carry on the international work of the Association.

The afternoon program was devoted to outlining plans suggested by the morning's discussion. W. I. McNair, general secretary of the Louisville Y. M. C. A. and Associate State Secretary C. A. Tevebaugh spoke. At the election of members of the State Managing Board, George E.

**C. & O. STOCK PENS  
TO BE MOVED AT ONCE**

Railroad Company Will Transfer Their Stock Pens to the Mason County Stock Yards.

The Maysville Chamber of Commerce issues the following:

Yesterday, in conversation with Mr. W. S. Taylor, Superintendent and Mr. W. S. Walters, Division Engineer of the C. & O. Railroad with reference to the moving of the stock pens from east Maysville to the C. & O. lot adjoining where the city stock pens are now located. Mr. Taylor gave Mr. Dodds and Judge Purnell assurance that the pens belonging to the C. & O. would be removed from the East end and their property on lower Limestone street.

The Chamber of Commerce, the Stock Sales Committee and Mr. Wikoff have been working on this proposition for quite a while, but could get nothing definite with reference to the matter until the Superintendent was taken to the place where it was suggested that the pens be moved. The official immediately saw the advantage it would mean both to the shippers and the C. & O. Railroad and gave assurance that the work would start as soon as possible for the removal of said pens.

The Chamber of Commerce feels greatly indebted for the effort put forth by the local agent, Mr. Wikoff in endeavoring to have these pens removed as it will be a big improvement and a great convenience to the shipper of this county.

Mr. Walters also told the Chamber of Commerce representatives that the matter of installing the electric boulevard lights at the C. & O. depot was being worked out and will be erected in the very near future. He also gave the committee assurance that their lot on Poplar and the C. & O. will be cleaned up at once.

## MOVIES WILL SHOW WORK OF THE "Y"

Moving Pictures Taken on the Battle Fronts Will Tell Story of What Y. M. C. A. Did During World War.

Chicago, July 10.—Motion pictures taken under fire by United States Signal Corps photographers for the War Department's files at Washington are to be used in a great five-reel feature, "The Truth About the Y," which is to be released soon by the Central Department of the National War Work Council, Y. M. C. A.

The picture shows every phase of the Y. M. C. A. war work in the camps in this country, on the transports, on the firing line and after the armistice was signed. It is a complete record, more up principally for the Washington files, but now to be used as a silent counter-comment on recent criticisms.

"The men who took these overseas pictures were not propagandists," says the Central Department publicity director, "and were not there for the purpose of misrepresentation, one way or other. They were making an official motion picture record of the war for preservation in Washington. But it happens that these pictures show just what the Y. M. C. A. was doing over there, and people who want to give the Y. M. C. A. a square deal should see this film before forming final judgment. The picture will not be distributed through the theaters as a commercial proposition, but will be on exhibition at Y. M. C. A. buildings, church socials, lodge meetings, and so on. It will be available for Y. M. C. A. secretaries early in August."

## STATE CROP REPORT SHOWS THE SEASON IS NOW BUSIEST

Farmers Are Into Their Work Just Now From Day Break to Dark With Much Work to Do.

The state crop report as of July first issued by State Commissioner of Agriculture Mat. S. Cohen, follows:

No day is long enough for the farmers at this busy season of the year with everything coming at once. Labor shortage is acute. Wet weather during May delayed planting so that some planting is yet being done; corn and tobacco need cultivation; hay harvest on hand; wheat harvest nearing completion with about 17 per cent. of crop out on July 1st. Some wheat sprouting in shock, and little threshing has been done but early estimates on yield of wheat would indicate an average of 14.9 bushels per acre which is an increase over last year's first estimates. This would give a prospective production of over 15 million bushels in Kentucky this year.

Progress of growth of corn is good. It is needing cultivation badly. Condition shows at 80 per cent. Condition of oats shows at 88 per cent. with a preliminary estimated yield of 24 bushels per acre as compared with 25 bushels last year. Early estimate on rye is 14 bushels per acre while Barley's average is given at 24 bushels per acre. Barley acreage is about two per cent. less than last year.

Condition of Burley tobacco is given at 80 per cent. while Dark tobacco shows at 81 per cent.

Yield of hay is estimated at 1½ tons per acre. Condition of grasses follows: Clover 93 per cent. Orchard grass 93 per cent. Blue grass 95 per cent. Pastures are reported to be excellent.

Acreage of cow peas is given at 82 per cent. which is considerably less than last year partially owing to high cost and scarcity of seed. Condition is given at 85 per cent. Soy beans show an acreage of 88 per cent. and condition of 85.

Alfalfa acreage shows a considerable increase, same being 99 per cent. while the estimated yield per acre of first cutting is 1½ tons.

Garden conditions show at 87 per cent. Potatoes at 87 per cent.

Fruits are a short crop showing from failure in certain localities to crops in others. Black berries show at 101 per cent.

Live stock is reported in good healthy condition, 95 per cent. of normal. While poultry shows at 93 per cent.

Specific report as to the North East section of the state is as follows:

Four weeks of dry weather has caused crops to be backward. Seasonable weather latter part of June has helped crops considerably. Winds and rains have damaged wheat.

## BRITISH DIRIGIBLE STARTS ON THE HOMEWARD TRIP

Big Ship of the Air Left Long Island On Return to England Wednesday Evening.

Mineola, L. I., July 10.—The British dirigible R-34, which left on the return voyage to England at midnight, was about 30 miles out at 6:30 a. m.

A message from the airship received at the naval radio station here at that hour gave her position at 40:15 north latitude and 67:50 west longitude. That would locate her about 150 miles southwest of Sidney, N. C., and 300 miles directly east of Mineola.

Shortly after the R-34's getaway she reported a speed of 55 miles an hour.

The decision to start last night instead of waiting until 4 a. m. today was reached by Major G. H. Scott, commander, at 10:15 p. m. It was occasioned by a weather bureau bulletin, urging haste because of the approach of a storm. Brigadier General Maitland, only British officer absent from Roosevelt Field, was summoned hastily by telephone.

A 25-pound sack of mail was placed aboard. Maitland came aboard at 11:30 and Lieutenant J. J. Quinn gave the signal to the 500 men clinging to the guy ropes and gondolas to swing her around to head into the wind.

The airship was turned slowly until she pointed directly toward New York City, at 11:40. "All clear" was signaled, and the hydrogen gas, which had been flowing into the balloons, was cut off. At 11:55 bells tinkled throughout the length of the craft. Then: "Let go!" The R-34's last tie was severed and she slowly arose about 25 feet, hesitated, then rose again to fully 800 feet. The engines were started and she moved majestically toward Manhattan.

## DATES FOR FARMERS' MEET ABOUT DECIDED UPON

Mason County's Free Chautauqua Will Probably Be Held on August 11, 12 and 13—Good Program Assured.

Upon his return here Thursday morning, County Agent George Kirk found a communication from the committeemen in charge of all arrangements for the big free Farmers' Chautauqua to be held over the state this year, in which it is suggested that August 11, 12 and 13 could be given as the dates for the Mason county meeting.

These dates will be perfectly agreeable to the local committeemen so far as is known now as they do not conflict with any previous arrangements, however they have not been definitely decided upon. The matter will be gone into very carefully and the exact dates will be announced later.

Mr. Kirk was assured that the program for the Maysville Chautauqua would be just as strong as at any place in the state and that some of the best informed men on matters of vital importance to the farmers would speak during the three days.

## ASK YOUR NEIGHBOR

It has been said that there is now hardly a city, town or village in this country wherein some woman does not reside who has found health in that good, old-fashioned remedy, Lydia E. Therefore, if you are suffering from some ailment, and hardly know what to do for it, and have tried other remedies without help, ask your neighbor if she has ever used Lydia E. Pinkham's Vegetable Compound. If she herself has never had the need for it, undoubtedly she knows others who were just in your condition and who have been restored to health by its use.

## STAY OF EXECUTION GRANTED NEGRO SAVED BY STANLEY

Frankfort, Ky., July 10.—Complying with the request of several delegations to grant some relief to Lube Martin, under death sentence, Governor James D. Black, has given a reprieve staying the execution set for July 14 to July 25. The Governor took this action in order to familiarize himself with the records in the case. He has been requested to commute the death sentence to life imprisonment.

Martin, who is a negro, killed a policeman in Murray by the name of Duiguid. It was at the trial of Martin that Governor Stanley defied the mob which threatened Judge Bush, the trial judge, who refused to divulge the keeping place of Martin.

## INQUEST INTO DEATH OF FANT JOHNSON SET FRIDAY

An inquest into the death of Fant Johnson, Fleming county man, found dead in the bathtub at his boarding house in Lexington Tuesday, with a razor lying nearby, will be held Friday morning by Coroner John Anglin. Johnson has made a previous attempt at suicide two weeks before by taking strychnine, and was discharged from the hospital only Monday. Despondency is thought to have been the cause of his act.

## TERRIBLE SORES

No Matter How Chronic, J. Jas. Wood & Son Guarantees San Cura Ointment to Give Relief and Often Permanent Cure.

"My daughter was troubled for over a year with a fever sore on her leg, and was helpless in bed for three months. To the great surprise of all, including the four doctors who had attended her, San Cura Ointment healed the great sore in less than six weeks."—J. D. Hood, Townville, Pa.

Karl C. Banks, of the Atlantic Refining Co., of Pittsburg, had a sore on his ankle for a year. He doctored, and tried various remedies without relief. He says: "San Cura Ointment worked like a charm; reduced the swelling and healed the sore in two weeks."

Bear in mind, that besides sores San Cura Ointment is used with great success in eczema, boils, carbuncles, salt rheum, tetter, also itching, bleeding and protruding piles. In cases of burns, scalds, cuts and bruises, San Cura is most valuable. The price is only 30c, 60c and \$1.20 a jar, and J. Jas. Wood & Son guarantees it.
